CIA IMAGERY ANALYSIS DIVISION

SHIPYARD : AMUR SHIPYARD 199
LOCATION : KOMSOMOLSK, USSR
GEO COORDS: 50-33N 137-02E

KEY TO ANNOTATIONS

1. Probable KRUPNYY Class DD hull (LOA approx 450').
2. Launching/transverser system under construction. The completed portion of the system measures approximately 285' x 75'. Excavations and clearing scars indicate the length will be extended to approximately 1,000' in order to service the two smaller construction halls (annotations A and B). A probable winch house for the new system is located at the end of the scarring (annotation C).

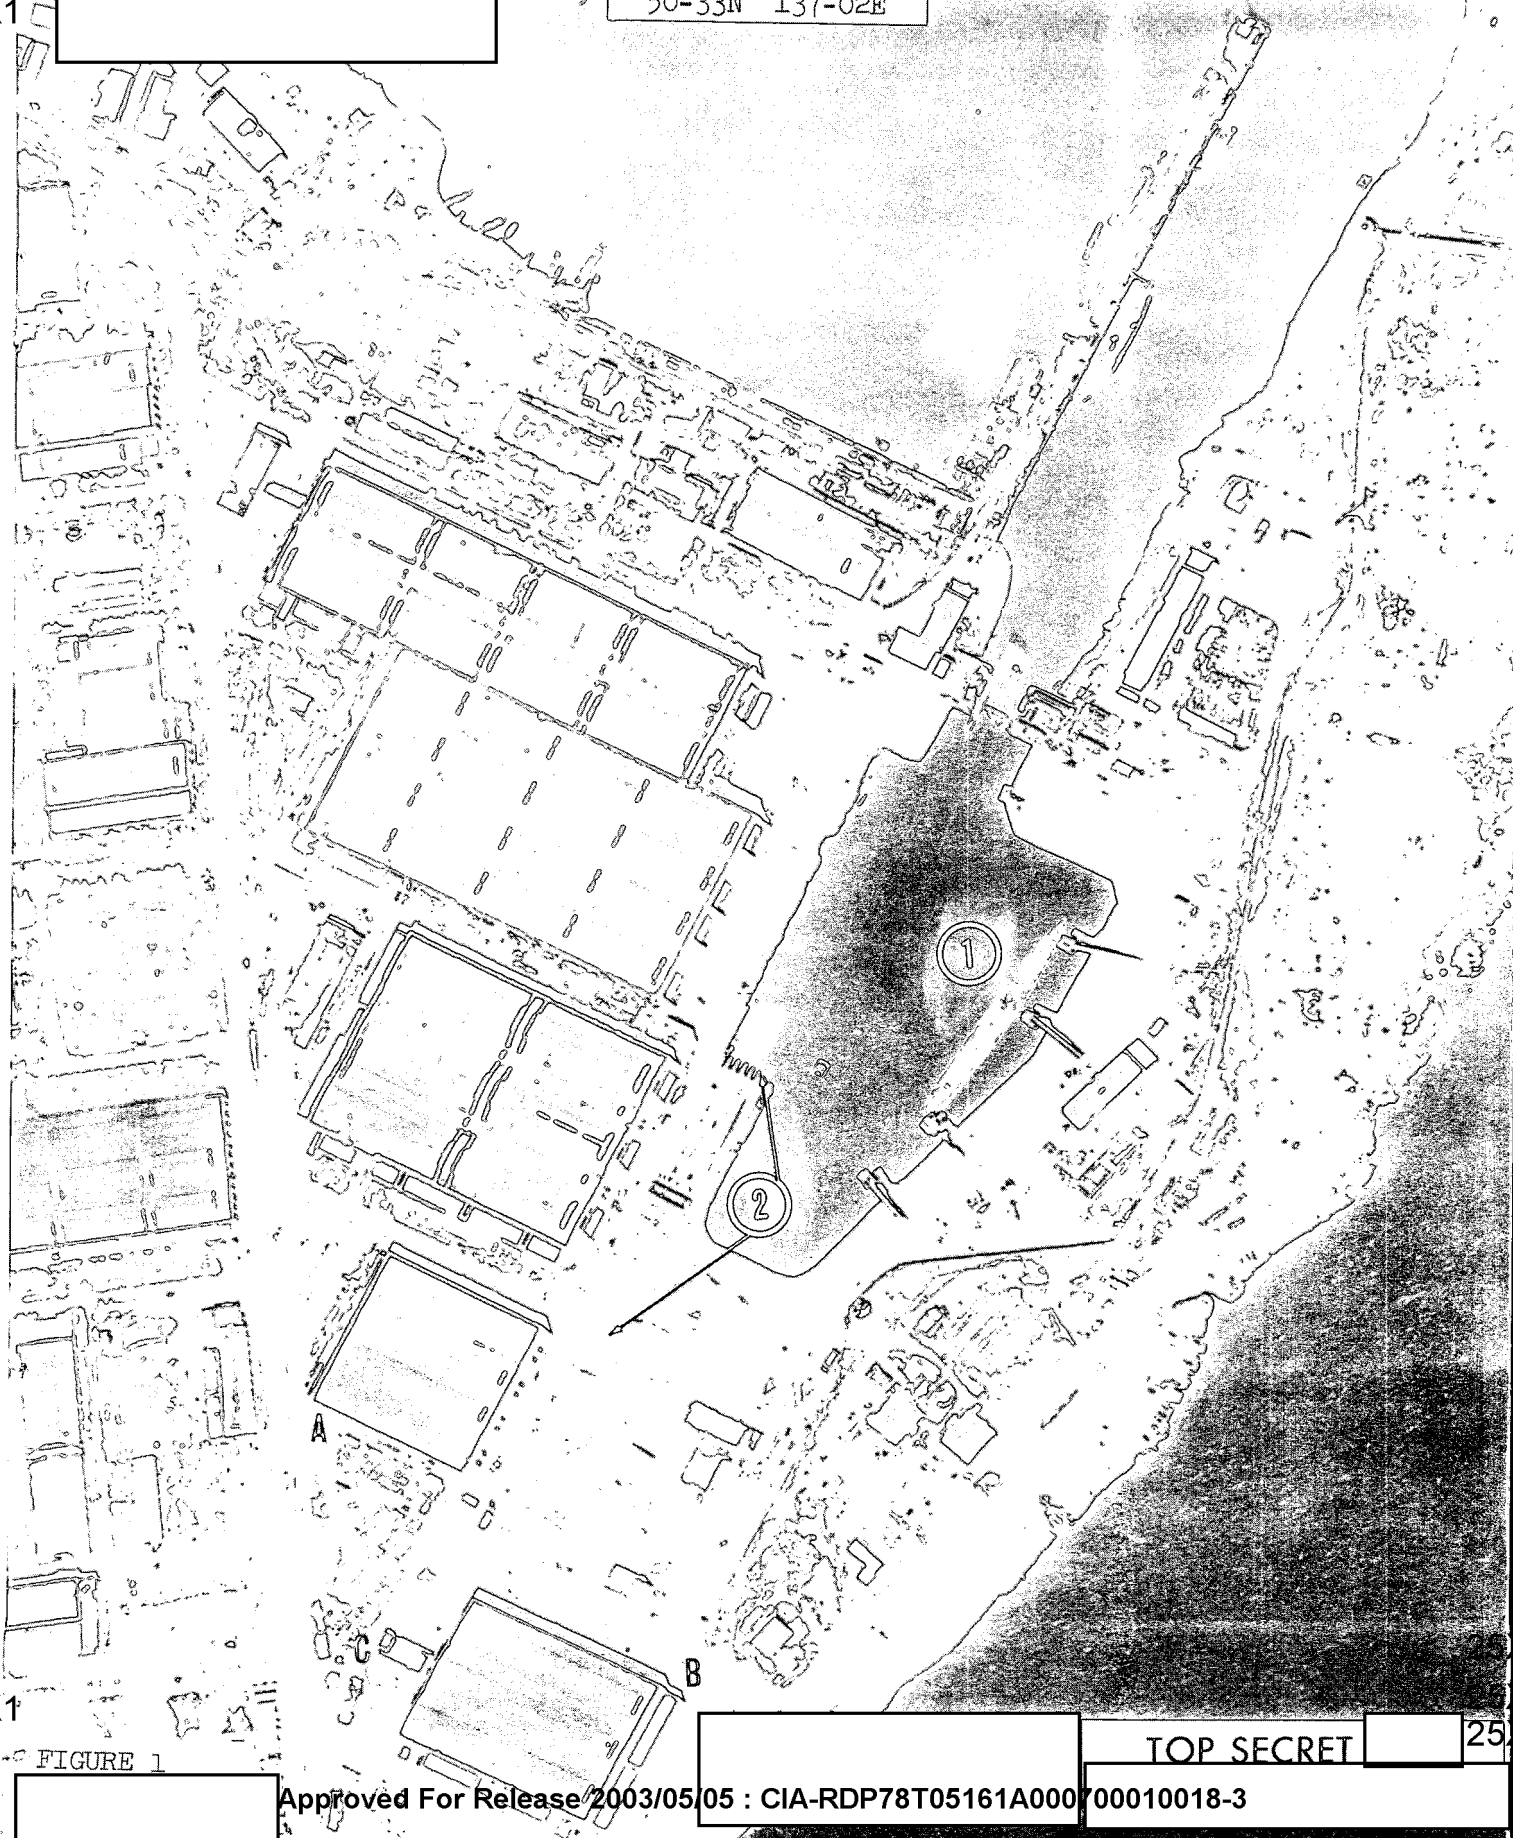

NOTE: All measurements were made by the CIA/IAD project analyst. They should not be construed as being mensuration data compiled by the NPIC Technical Intelligence Division.
